

PoLSKI CPD

24-28.01.2023

Hotel Meta Szczyrk

PoLSKI CPD is a trip unlike any other.

A perfect opportunity to immerse in the intimate atmosphere of a winter wonderland while getting a better understanding of the latest advanced equine reproduction veterinary techniques.

During the three-day trip, we provide you with several-hour blocks of lectures devoted to reproduction in the mare and stallion. The talks will be given by outstanding specialists from around the world. Interspersed with lectures will be the skiing or skiing training practices held by experienced instructors with a competition background. In the evenings, we will gather for further experiences in the winter delights such as a sleigh ride, a bonfire, or a regional, highlander feast.

Hotel Meta Szczyrk

Is a four-star, beautiful hotel located, directly on the slopes in a picturesque mountain village. On the premises, there are a lot of attractions that will satisfy the needs of everyone. After an eventful day, the Wellness Zone with saunas, jazz musicians, and a swimming pool will provide guests with moments of relaxation, while winter evenings can be spent in the hotel bar with a glass of red wine.

As part of the conference, we provide you with a full board in the hotel restaurant. Accommodation for you is provided in comfortable, modern double rooms, equipped with single beds, a spacious bathroom, TV and free access to the Internet.

Conference

During the academic part of the trip, you will have the opportunity to listen to lectures on the latest techniques used in reproductive biotechnology, practical aspects of mare breeding, insemination and the andrology of stallions. Presentations will be given by international experts:

- ▲ Prof. Marco Antonio Alvarenga
- ▲ Dr. James Crabtree
- ▲ Prof. John Newcombe
- ▲ Dr. Roberto Sanchez
- ▲ Asst. Prof. Anthony Claes
- ▲ Prof. Juan Cuervo-Arango
- ▲ Prof. Duccio Panzani
- ▲ Dr. Sandra Wilsher

Lecturers will be present at all the social events, ready to engage in conversation and answer questions.

SKI experience

The daily, four-hour ski practice will be conducted in a way that will leave you both fulfilled and fresh. Exercises, analysis, and plenty of riding will allow those of you who have already had previous experience with white madness to enter a higher level of skiing and provide you with a better understanding of skiing techniques. For those of you who wish to start the skiing adventure, we would love to familiarize you with the sense of freedom skiing provides, as well as, how to navigate the slopes easily and most of all safely.

Practice will be conducted in Szczyrk Mountain Resort, located proximately to the hotel. Skiers have at their disposal over 30 slopes of varying difficulty, marked out on the picturesque mountains surrounding the town. The total length of ski slopes in Szczyrk reaches 40 km.

PROGRAMME

TUESDAY

- 16:00-22:00 REGISTRATION
- 20:00 SUPPER
- 21:00 OPENING

WEDNESDAY

- 08:00-09:00 LECTURES
